

Morgan Jones

Front End & WordPress Developer

New York, NY (open to fully remote) | morganjones.ny@gmail.com | morganjonesdev.com

SUMMARY

Front End & WordPress Developer building custom themes, plugins, and interactive, data-driven tools, with a focus on accessibility (WCAG 2 AA) and content that non-technical teams can update themselves. Background in film and TV art departments trained me to read a brief, execute under pressure, and sweat the details that matter on screen. Currently integrating AI into production workflows, including building apps with the Claude API.

SKILLS

Languages & Frameworks: React, JavaScript, HTML, CSS, PHP, React Native, Vue.js, Python

WordPress: Custom Themes, Custom Plugins, ACF, Custom Post Types, WP REST API (custom endpoints), PHP Templates, Full Site Editing

Accessibility & Security: WCAG 2 AA, Pa11y, axe, Lighthouse, WordPress Security Hardening

Tools & Workflow: Git, GitHub, Vite, Chart.js, Figma to Code, Claude API, AI-assisted development, CSS Animation, Responsive Design

WORK EXPERIENCE

Freelance Front End & WordPress Developer, Independent, New York, NY 2021 - Present

- Built the Dessert Map, an interactive self-check for Universo da Doçura, as a custom WordPress plugin: a custom REST API endpoint, ACF-curated content, a Chart.js results read-out with an accessible data table, personalized suggestions linking into the site, and print/save. Audited with Pa11y (axe + HTML_CodeSniffer) and Lighthouse.
- Developed Universo da Doçura, a custom WordPress theme with ACF, custom post types, taxonomies, and PHP templates deployed to live hosting. Achieved a 100/100 Lighthouse Best Practices score and resolved all 23 WCAG 2 AA errors flagged by Pa11y.
- Built and deployed Chromaterra (React 19, Vite, Firebase, Claude API), an AI-powered color palette app scoring 90 Performance, 96 Accessibility, 100 Best Practices, and 92 SEO on Lighthouse. Resolved all 7 WCAG 2 AA errors flagged by Pa11y.
- Translated a Figma design to a live WordPress site for a client, handling theme customization, responsive layout, and brand implementation.

AI Output Evaluator, Outlier, Remote 2024 - 2025

- Assessed AI-generated responses for accuracy, clarity, and alignment with user intent to improve LLM output quality.

Workshop Instructor (Contract), Girl Develop It, New York, NY 2022 - 2023

- Designed and taught two-day Intro to CSS Animations workshops on Zoom, building interactive CodePen exercises for learners at multiple skill levels.

Art Department Coordinator, IATSE Local 829, Greater New York Area 2018 - 2020

- Coordinated operations across 7 scripted TV and film productions, managing vendor relationships, budgets, and logistics under tight production deadlines.

EDUCATION

San Diego State University, B.A.S., Technical Theatre / Theatre Design & Technology

Zero To Mastery Academy, React + React Native Coursework

LANGUAGES

English (Native), Portuguese-BR (Conversational)
